sponsored by **No-Scalpel Vasectomy International, Inc. and World Vasectomy Day, Inc.**,
dedicated to the world-wide promotion and provision of vasectomy services, the training of
new vasectomists, and the dissemination of knowledge about vasectomy.

Dr. Gonzalez actively participated in exchanges of knowledge related to:

1. the technical and social aspects of vasectomy,
2. global variations in vasectomy service delivery through updates about World Vasectomy Day and NSVI initiatives,
3. patient counseling pre-vasectomy, especially men who are childfree and who have pregnant partners,
4. pre-vasectomy patient preparation, including consent, administration of pre-op meds, relaxation techniques, and site preparation,
5. post-procedure counseling and clinical follow-up including post-vasectomy semen analysis,
6. prevention and management of complications including hematoma, infection, and post-vasectomy pain,
7. semen storage before vasectomy and use of stored sperm,
8. promotion of vasectomy locally and globally, and
9. future options for male sterilization as personally presented by industry CEOs from Signati Medical, NEXT Life Sciences, and Contraline.

Dr. Gonzalez personally

1. contributed to both formal didactic presentations and less formal break-out sessions,
2. broadened her own perspectives with those of providers from overseas, and
3. critiqued videos of a variety of vasectomy techniques.

During the five-day seminar, participants were engaged in active discussion about vasectomy for at least four hours per day and should be credited with **20 hours of continuing medical education.**
